Heading styles with a difference , with or without a pelmet board. They add a touch of elegance to any room

Voiles used as the main curtain and panels with a mix and match design, fresh looking with a touch of individuality. Why not use the same materials for a Japanese Panel to your window or as a door panel to a closet area. Then take your main pattern and make a bed throw or just cushions scattered on the bed or day couch.

Striking but very simple to do. Using two pairs of curtains, or a dummy panel for one colour. Tie back both or leave one loose. The choice is yours.

Used with a coordinating voile panel or blind for privacy you could leave the curtains tied back.

CRAZY CURTAINS

Simple idea below. Make the headings in the same colour as curtains or line them with a co-ordinating colour to show as a theme. These are very good for the younger person of the household, so why not use a flag theme or nursery rhyme theme.

For the teenager use there favourite print from a poster. (for details or making your own print, email me using the contact form on the website)
